

CREDICORP LMS APPLICATION MANUAL

For back office users.

GETTING STARTED

How to Login

1. On your browser visit the link ([Welcome | CREDICORP - Loan Management System](#)).
2. You will be prompted for your login credentials. Enter your login details.
3. Click on the **Login** button. If login is successful, you will be redirected to the dashboard.

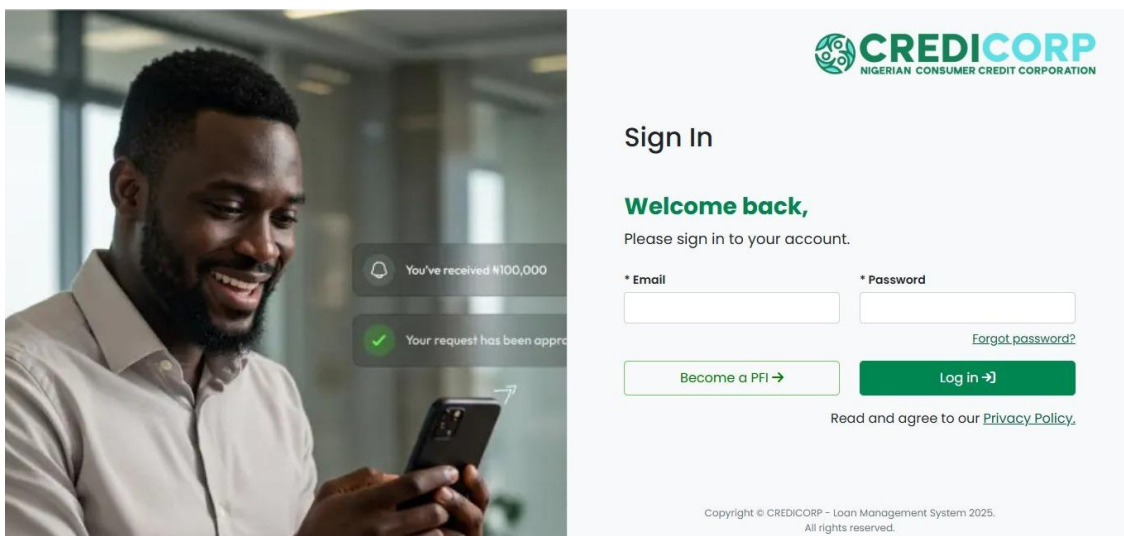

Figure 1: Login page.

How to Logout

1. Click the dropdown top right of the screen.
2. Click **Logout**.

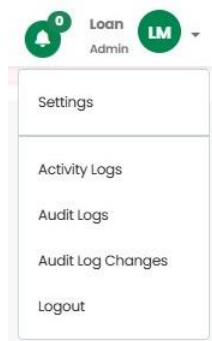

Figure 2: Logout.

The Dashboard

The dashboard is the first view seen after login. It can also be accessed by clicking on the home button found top left of the navigation bar seen on every view. The dashboard view is divided into sections.

1. Statistics section – showing application statistic such as Approved Credit Limit, Available Credit Limit, Collateral Coverage, Outstanding Loan Balance, Total Amount Disbursed, Count of Approved Loans, Count of Pending Loans and Count of End Borrowers
2. Notifications section – showing information about requests pending approval or tasks specific to a user.
3. Processes Pending Approval table – showing request pending approval ordered by the date they were last updated.

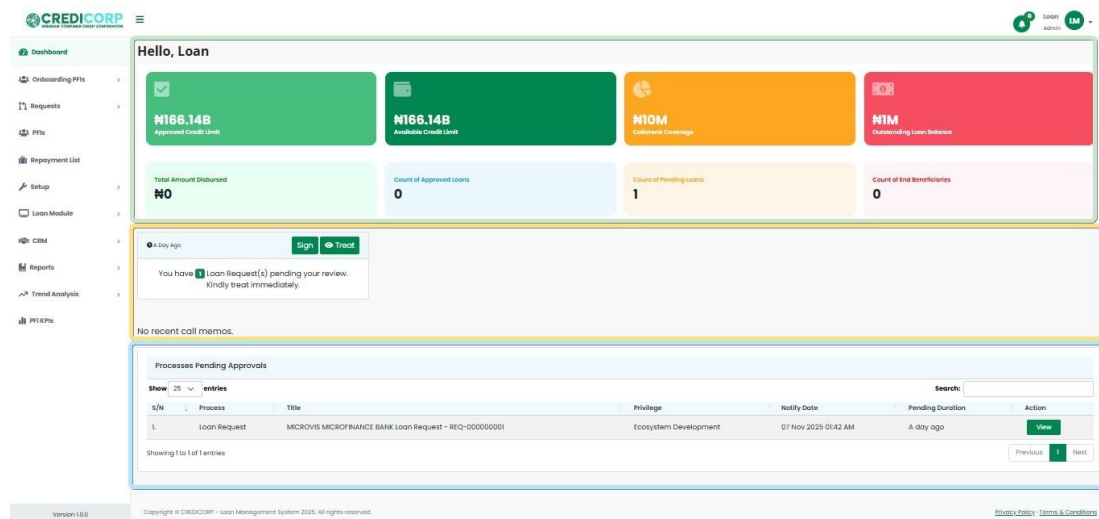

Figure 3: Backoffice Dashboard showing the different sections – Statistics section (red), Notification section (purple) and the Processes Pending Approvals table (yellow).

The Side Navigation Bar

This is to the left of the dashboard and every other view. It provides routes to different sections of the application.

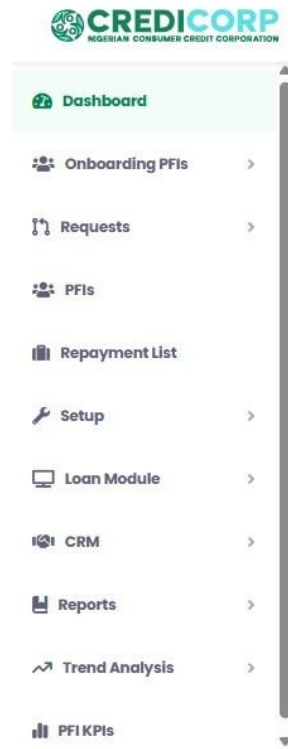

Figure 4: The Side Navigation Bar.

PFI

*** PFI management from back office is only available to roles that may be given this authorization in the future.

Getting to a PFI

1. You access the list of PFIs from by clicking **PFI** from the side navigation bar.
2. Enter a PFI name in the **Search** field.
3. Click the options icon “:” for a PFI to view available actions.

#	PFI Code	PFI Name	PFI Type	Outstanding Loans Balance	Approved Limit	Collateral Cover

1. Click on the notification card showing pending end beneficiary requests expected to be reviewed by your role. Pending end borrower requests can also be seen from the **Processes Pending Approvals** table at the bottom of the dashboard. You can also access pending end borrower requests from the side navigation by clicking **Requests > End Beneficiary Requests**.
2. Select request to review by clicking **View**.
3. Review **End Beneficiary Updates** and **Supporting Documents** by clicking their respective tabs.
4. To approve or reject, enter your **Comment**, click **Approve** or **Reject > Confirm**.
5. To send back, click **Send back > Select a Target Step > Confirm**.

Update End Beneficiary's Information

1. Perform steps 1 – 3 from "Review End Beneficiary Requests" .
2. In the **End Beneficiary Update** tab, locate the **End Beneficiary** section.
3. Select upload format, either **Bulk file upload** or **Add a single item**.
4. Download and complete empty Excel template. Skip this step if you already have completed the template prior.
5. Choose end beneficiaries Excel file > Upload End Beneficiaries File.

6. For end beneficiaries who cannot be successfully verified, click View and update end beneficiary information OR click Remove to remove the end beneficiary from the end beneficiaries list.

Update End Beneficiary's Supporting Document

1. Perform steps 1 – 3 from "Review End Beneficiary Requests.
2. In the **Supporting Documents** tab, select the **Document Type** (note the accepted document formats).
3. **Choose File.**
4. Click **Upload Document.**

*** Note that some fields, buttons, sections, or tabs may not be updateable to some users depending on the role of the user. Contact the application admin for support.

Review Credit Limit, KYC Updates, PFI User & Deferral Requests

1. Click on the notification card showing pending end borrower requests expected to be reviewed by your role. Pending end borrower requests can also be seen from the **Processes Pending Approvals** table at the bottom of the dashboard. You can also access these pending requests from the side navigation by clicking **Requests** and **selecting the respective request.**
2. Select request to review by clicking **View.**
3. To approve or reject, enter your **Comment**, click **Approve** or **Reject > Confirm.**
4. To send back, click **Send back > Select a Target Step > Confirm.**

Review Performance Evaluation Request

1. Click on the notification card showing the Performance Evaluation Request expected to be reviewed by your role. You can also access Performance Evaluation Requests from the side navigation by clicking **Requests > Performance Evaluation Requests**.
2. Select request to review by clicking **View**.
3. Review Performance Evaluation Request and supporting documents by clicking on their respective tabs.
4. To approve or reject, enter your **Comment**, click **Approve** or **Reject > Confirm**.
5. To send back, click **Send back > Select a Target Step > Confirm**.

Update Performance Evaluation Supporting Document

1. Perform steps 1 – 3 from “Performance Evaluation Request” .
2. In the **Supporting Documents** tab, select the document type (note the accepted document formats).
3. **Choose File.**
4. Click **Upload Document**.

The screenshot displays the 'Performance Evaluation Request' interface. At the top, there's a breadcrumb trail: 'Performance Evaluation Request / Evaluation Request / REQ-000000073'. Below this, the 'Performance Evaluation Request' header shows the 'Approval Status' as 'Pending'. Two tabs are visible: 'Performance Evaluation Request' (active) and 'Supporting Documents'. The main content area is divided into two sections. The top section, 'SUB-LOAN PERFORMANCE REPORT', contains several questions with 'Yes'/'No' options and a 'Reasons?' field. The bottom section, 'OFFICER APPROVAL', shows the 'Reviewer' as 'LOAN MGR' and a 'Comment' field. At the bottom right, there are three buttons: 'Send back' (yellow), 'Send back to PM' (yellow), and 'Approve' (green). A 'Relationship Manager' link is also visible in the bottom right corner.

Figure 15: A collateral request undergoing approval. *** Note that some fields, buttons, sections, or tabs may not be updateable to some users depending on the role of the user. Contact the application admin for support.

CRM

*** PFI management from backoffice is only available to the Relationship Manager role and any other role that may be given this authorization in the future.

Figure 16: Side navigation route to get to CRM.

Create a Call Plan

1. Click on the **CRM** module on the side navigation bar > **Call Plan List**.
2. Click **Create a Call Plan**.
3. Complete all fields (fields with * are compulsory).
4. Click **Create > Confirm**.

A screenshot of the 'Add Call Memo' form. The form has a title bar with 'Add Call Memo' and a '+ Create Task' button. It contains several fields: '* Supervisor' (a dropdown menu), '* Event Date' (a date input field), '* Event Time' (a time input field), and '* Event Duration' (a duration input field). Below these is a large text area for '* Body Description' with a rich text editor toolbar. At the bottom right are 'Back' and 'Add' buttons.

Figure 17: A create call plan view.

Update a Call Plan

1. Perform steps 1 from "Create a Call Plan" .
2. Click on the option icon ":" of a selected call plan > **Update**.
3. Update required fields.
4. Click **Update > Confirm**.

Delete a Call Plan

1. Perform steps 1 from "Create a Call Plan" .

2. Click on the option icon “:” of a selected call plan > **Delete** > **Confirm**.

Create a Call Memo

***Call memos can be created from call plans.

1. Perform steps 1 from “Create a Call Plan” .
2. Click on the option icon “:” of a selected call plan > **Call Memo**.
3. From the list of the call memos for that call plan, click **Add Memo**.
4. Complete all fields (fields with * are compulsory).
5. Click **Add** > **Confirm**.

Create a Task

***Tasks can be created from call memos.

1. From a call memo, click **Create Task**.
2. Complete all fields (fields with * are compulsory)
3. Click **Save**.
